**11. Competitive Runs & Timing**

Competing vehicles shall be timed on each course one at a time.

No car shall start its run if another vehicle is on course in a position that could result in contact between them.

A competitive run shall commence from a standing start. A countdown shall be used in all cases. When timing with a stopwatch, the timing will begin when the marshal says "Go". We expect to use Darin's electronic timing system which posts results immediately to <http://kwrc.blither.net>

## 2016 KWRC Humberstone Rallycross #2 Supplementary Regulations

A competitive run shall end when the competing vehicle crosses a flying finish line marked by a red flying finish board. A short distance after the flying finish will be a "Stop Box" which will be about twice the length of a car. Failing to come to a complete stop within the bounds of the stop box will incur a 1 minute penalty. A yellow flying finish warning board will be used.

Results will be determined by the cumulative times recorded for each run. An incomplete or missed run will be scored at 3 minutes.

Competitors are expected to line up in their start order 5 minutes before their expected start time; Competitors are expected to run within 3 car numbers of their start order or will be classified as a DNS. If the competitor informs the CRO or HQ that they will be unable start at their designated position, an exemption from the above may be granted, but the event will not be delayed and the affected competitor may miss their run.

**Competitors must obey all marshals!**

If you withdraw during the event for whatever reason, notification must be given to the CRO or HQ and Scoring.

If a large red "STOP" sign is shown to a competitor during a competitive run, competitors are to stop immediately. When instructed by the marshal, proceed to the finish at **SLOW** speed. The competitor will then be allowed to re-start their competitive run. Any practice or excessive speed during this time will result in the competitor being excluded from the run and listed as a DNS.

## 12. Penalties

A penalty of 1 minute will be added to a competitor's score if the competitor:

- Is deemed to have gone off course (Short cutting). Running over cones marking the inside of a corner could be interpreted as short cutting.
- Has a stop box violation. An additional minute added for second offence, disqualification for a third offence
- Jumping the start
- Hitting a device such as cones, hay bales, barrels or tires marking a chicane or protecting fixed objects, hitting fixed objects.

We will bring in a couple of porta-potties and a hand washing station, and we are arranging for a food vendor to be onsite. If you have an easy-up you might find it useful to bring it along.
